- Additions to, or alterations, extensions or improvements of, any of the assets of the business;
- Interest on the capital of the proprietor or partners of the business;
- Bad debts not actually written off in the accounts;
- Losses sustained in previous years;
- Expenditure of any kind;

(vi) Depreciation of any kind other than that specified in the Act;

(vii) Drawings or salaries of the proprietors or the partners;

(viii) Private or personal expenses of the business;

(ix) Any expenditure of any kind which is not incurred solely for the purpose of earning the profits.

If you have included any such sums in your

Note 6.—The income, profits or gains shall be computed after making allowance for any expenditure (not being in the nature of capital expenditure) incurred solely for the purpose of such production or production, provided that no allowance is made in respect of any of your personal expenses. The annual fees received by you in any part of India (whether within British India or not) must be included by you in your receipts.

Note 7.—Income-tax chargeable on the profits of companies is paid by the companies, so that the dividends received by shareholders represent the net amount remaining after any income-tax due by the company has been paid. This amount should be entered in column 5 of the statement. The proportionate tax will be added in the Income-tax office.

If the rules of an applicable in your local income tax law than the rules of income-tax applicable in the profits or gains of the company at the time of the declaration of such dividends, you may, by attaching the company's certificate received with the dividends, have the same deducted on your dividends from the company on account of the tax payable by you on your other income instead of having to report separately for a refund.

Where a company declares a part of its profits in British India and part outside British India, such portion of its dividends as is payable out of profits taxable in British India should be shown in Part I under item 7 and the balance in Part II under item 8.

Note 8.—Agricultural income from land not paying land revenue or land tax is an authority in British India should be included under this head.

Note 9.—Deductions from total income can only be made for insurance premium in respect of insurance on your own life or on the life of your wife, or in respect of a contract for a deferred annuity on your own life or on the life of your wife. No deduction is permissible in the case of any other form of insurance except in the case of Hindu undivided families where deductions are permissible on account of premium paid in respect of insurance on the life of any male member of the family or of his wife. The original receipt or the certificate of the insurance company to which the premium was paid must be attached to the return.

Note 10.—The gross amount of salary and not the net amount after deduction on account of income-tax, professional fees, etc., should be shown.

Note 11.—Under this head should be shown interest on securities issued by the Government of India or a local Government or a local authority in India on which interest is paid or payable outside British India, and the interest on debentures of companies operating in India paid or payable outside British India. For this purpose "Company" means "a company as defined in the Indian Companies Act, 1913, or in force in pursuance of an Act of Parliament or of Royal Charter or Letters Patent, or of an Act of the Legislature of a British possession, and includes any foreign association carrying on business within India whether incorporated or not, and whether its principal place of business is situated in British India or not, which the Central Board of Revenue may, by general or special order, declare to be a company for the purposes of this Act." Interest on all other securities should be shown under item 9.—see Note 12. Interest should be shown gross if the interest is deducted therefrom after the income tax on the interest; if the tax is deducted at source, the net interest received should be shown.

Note 12.—See instructions in Note 4.

Note 13.—The details should be given as explained in Note 4, but those will be no "Gross" entry of amount of profits included in the account already charged to Indian income-tax and the interest on

securities of the Government of India or a local Government in India declared to be income-tax free.

Note 14.—This should show production from received outside British India.

Note 15.—The figure to be shown here is the amount actually received by the shareholder, irrespective of whether the dividends are declared free of tax or not.

Where a company declares a part of its profits in British India, and part outside British India, such portion of its dividends as is payable out of profits taxable in British India should be shown in Part I, under item 7 and the balance in Part II under item 8.

Note 16.—This head will include interest received on all securities other than those entered in item 9.—see Note 11. 1. COTTON CROP OF 1916-17—INTERMEDIATE MONTHLY REPORT.

In the Central districts and the South, the second pickings of the 1917-18 crop were below normal.

3. In the Coimbatore and Deccan, the weather of the early sowing crop is fairly good. The sowing of the crop has not commenced to any appreciable extent in the other districts.

2. SEDARANE CROP OF 1916-17—INTERMEDIATE MONTHLY REPORT.

The condition of the sedarane crop is generally satisfactory except in Coimbatore and parts of Salem and Coimbatore where it has been affected by drought to some extent.

3. THE SECOND CROP OF 1916-17—FIRST REPORT.

[On an average of the five years ending 1916-17, the area under jaggery in the Madras Presidency has represented 4.25 per cent of the total area under jaggery in India.]

The area sown with jaggery in the Madras Presidency up to the end of August 1917 is estimated at 21,463 acres against 23,400 acres on the corresponding date of last year. The decrease is about 2 per cent. The crop has been doing regularly year after year and the area has been declining. The present estimate is the lowest since 1910-11.

2. There has been appreciable decrease in area in Coimbatore, Mysore, Coimbatore, and North Arcot and it was largely made good by the increase in Nilgiris, Coimbatore, and South Arcot.

3. The crop has been affected by drought in the Coimbatore and Central districts.

4. There is no information about the quantity actually converted into dye as ploughed into wet lands as measures through the use of the crop as green manure is greater than as dye, especially in the Coimbatore and Central districts. If the entire crop were converted into dye, the yield would be about 2,445 cwt. against 7,500 cwt. estimated at the corresponding date of last year.

5. Figures by districts are appended.

PART I.

Enacting.

Insertion of new section 24 in Act VI of 1912.

"24 A. In the winding up of a life assurance company in a case where any provision of the profits of the company was before the commencement of the winding up allocated to policyholders, if, when the assets and liabilities of the company have been ascertained, there is found to be a surplus of assets over liabilities (hereinafter referred to as a *gross fund surplus*), there shall be added to the liabilities of the company in respect of the life assurance business an amount equal to such proportion of the *gross fund surplus* as is equivalent to such proportion of the profits allocated to shareholders and policyholders as was allocated to policyholders during the two years immediately preceding the commencement of the winding up, and the assets of the company shall be deemed to exceed its liabilities only in so far as these assets exceed those liabilities after such addition as aforesaid."

Provided that, if in any case there has been no such allocation, or if it appears to the Court that by reason of special circumstances it would be inequitable that the amount to be added to the liabilities of the company in respect of the life assurance business should be an amount equal to such proportion as aforesaid, the amount to be so added shall be such amount as the Court may direct."

T of 1912.

STATEMENT OF OBJECTS AND REASONS.

The objects of this Bill are—(1) to remove a defect in the Indian Life Assurance Companies Act, 1912, in regard to the distribution of the assets of a life assurance company in liquidation; and (2) to provide for the collection of certain statistical information in respect of all classes of insurance business.

2. Under the law as it now stands, it would be possible for the shareholders of a solvent life assurance company, by putting it into voluntary liquidation, to obtain possession of the surplus in the life fund and thereby deprive the policyholders of what should be regarded as part of the real value of their policies. This is possible because the liability of the company to the policy holders would be discharged by a provision which does not take into account the surplus held by a solvent company, which has been contributed by the policyholders. The Bill inserts a section in the Act to provide that the surplus shall be allocated to shareholders and to policyholders in the proportion in which the profits were allocated during the ten years immediately preceding the commencement of the winding up.

3. The Bill also requires every insurance company transacting any class of insurance business in British India to submit annual statements showing details of its business both in and outside British India.

STATEMENT OF OBJECTS AND REASONS.

Evidence has accumulated recently of the subversive intentions and activities of the Communist International generally, and in particular of this efforts in dominating agent India. The general policy of the Communist movement is to secure a rapid of domination and hegemony in the masses, whether industrial or agricultural, with the ultimate object of dominating by violence both the Government established by law and the present economic organization of society and subverting what they describe as the dictatorship of the proletariat. For the promotion of this movement, in India as in other countries, the Communists depend largely on the work of propagandists who are despatched to the country for the purpose of forming organizations intended to promote and spread communist ideas and doctrines, and of creating general unrest among the masses. It is not possible that these agents of subversion, if they happen to obtain entrance into India, should be allowed to stay in India with the object of undermining the whole structure of the life of the community. The Bill, therefore, is designed to provide a power of removing such persons provided that they are not Indian, British subjects or subjects of a State in India. Clause 2 has been drawn so as to define, as strictly as possible, the class of persons against whom these powers may be exercised.
